

Kitchen Display System (KDS) Setup Guide

Thank you for purchasing Linga POS Kitchen Display System. Use this guide to properly setup your new Linga POS KDS.

GETTING STARTED

Make sure you have the devices listed below and use only Linga POS certified devices:

- Monitor
- Bump Bar (KDS)
- Controller (KDS)
- Router & Modem

All devices must be connected to the same local network running your Linga POS Registers.

- 1 Connect Monitor to Controller by VGA Cable.
- 2 Connect Bump Bar to Controller by Network Cable.
- 3 Connect Controller to the main Router/Switch by Ethernet Cable.
